

"Burn It Down"

New Single, by Dylan Wickens & The Grand Naturals

Release Date : December 29, 2017. Available on iTunes, Google Play and at : dylanwickens.ca

Available for immediate airplay, Burn It Down is a new digital single release by Dylan Wickens & The Grand Naturals, in advance of a new full album release of original work to be released in 2018.

Burn It Down continues where the album, Hi Lo-Fi (2016) left off ; following a path to a darker, edgier rethinking of blues music. Melody and lyrical themes remain rooted in blues tradition, and instrumental arrangements take a right turn meeting and becoming friends with rock, roots and psychedelic power trio vibes of the sixties and seventies.

Written and produced by Wickens, Burn It Down was recorded at Sarah's Hall, in Russeldale, ON. Canada and engineered by Mike Whaling.

Wickens sings, plays all guitars, percussion and bass on the track. The drums were played by Cambridge, ON native, Vic Freitas.
